

S-60

BY REPROSCAN

BoviScan S60 is a portable, lightweight ultrasound unit designed for pregnancy diagnosis in sows, sheep and goats. The S60 can be worn on the waist and the image can be viewed on the Vista Goggles, NFI5000 or ReproScan 2.0 Monitor. The S60 has a convex array probe with no moving parts making it much more durable and reliable than mechanical sector probes.

Features

- 3.5 MHz convex T probe for large field of view
- Clear high-resolution image
- 8 hour lithium ion built-in battery
- Battery indicator on display
- Charge from 120/240 VAC or 12 DC (Car Charger)
